### House Appropriations Request FY 2010

**Project Name:** Low-Power Microelectronics for Harsh Environments  
Encountered in NASA Missions

**Recipient:** North Carolina A&T University

**Recipient Address:** 1601 E. Market Street

**Recipient City:** Greensboro

**Recipient State:** North Carolina

**Recipient Zip:** 27411

**Amount of Request:** \$900,000

**Explanation of the request (must include purpose and why it is a valuable use of taxpayer funds):** Prototype microelectronic circuits that can tolerate radiation and extreme temperature changes will be developed and delivered to NASA for use in deep-space missions. Research results will have dual-use for civilian and military applications as well.

*In order to offer more opportunity for public scrutiny, I have posted information on each project request submitted to the Appropriations Committee at the time the request was made.*

Rep. Brad Miller
